---

Due to the AB109 prisoner re-alignment, the jails have experienced a large influx of long term commitments. In a fairly short time all available sentenced beds will be taken by long term commitments. In an effort to manage the jail population the Work Release Program has implemented the following:

- All county commitments of 365 days and less are being automatically placed onto the Work Release Program under the authority of PC4024.3.
- Qualifying inmates are being released by the jails and given a Notice to Appear at the Work Release office where they will complete their jail sentence.
- Inmates released with a Notice to Appear are physically released from custody. However, their booking numbers are transferred to facility "90" until they process onto Work Release.
- If a subject is contacted in the field, they need to be treated as any other work release inmate.
- If someone housed as "90" on JIMSNET is re-arrested on new charges, the booking facility is aware of the procedures required to process the new charges.

If you have any further questions, please feel free to call the Work Release office during regular business hours, 0600-1630 seven days per week at (909) 473-3616.
